ADVANCE SKILLS YOU ALREADY HAVE

ADD CASH-MODEL GENITAL PLASTICS TO YOUR PRACTICE

The Premier Training Program Worldwide!

Labiaplasty w/hood * Vaginoplasty * O-Shot™ * Laser

Learn from the Best, Dr. Michael Goodman

Dr. Goodman has performed > 1200 cases and is:

1. Editor, "Female Genital Plastic Cosmetic Surgery"
2. Author, P.S. Textbooks chapters and research articles
3. Recipient of ISCG award for Teaching Excellence
4. Winner, ISCG award for "Outstanding Contributions to Cosmetic Surgery"
5. Winner, multiple "Best Of" awards for Genital Plastics

Experience quotes from former trainees:

"I'm a fellowship trained Urogynecologist in practice for just over 20 years. About 8-9 years ago I attended the LVRI training course which I enjoyed but I never really converted to any significant genital plastics. Once I finally decided to pursue this avenue, much of that training had "left" me, i.e. I had forgotten the intricacies that I had witnessed and another trip there was not a reasonable alternative. After speaking with Dr. Goodman, I felt that he and I had similar feelings toward the care of women and a reasonable approach to the genital cosmetic business. Training with him was much more than just didactics and surgery, it was more like a mentor experience. He spent a lot of time explaining potential complications and pitfalls and how to manage. He backed these up with photos and videos and I was able to ask specific questions and he gave very honest answers. Having done thousands of surgeries, I am fully engaged with reconstructive surgery and it's complications but he helped me understand that cosmetics is quite different and I've learned that he is correct after caring for many of these patients since my training with Dr. Goodman. He also shared his forms, consents, and other physical materials and allowed me to modify and add my logos, etc. Again, this got me going even more quickly and like he told me, once the word gets out that you are the person in your geographic area for labiaplasty and vaginoplasty, the women start coming and keep coming. Thanks Dr. Goodman for the training and the friendship and mentoring and thanks for remaining available for questions. I highly recommend Dr. Goodman's course for anyone who wants to add genital cosmetics to their practice."

Robert L. Harris, MD
Southeast Urogyn

Accredited for 18 AMA Cat. 1 CME credits

Experience quotes from former trainees:

"Should have done it sooner. A great course! Best I've been on. Impressed with the time Dr. Goodman spends with his trainee. Outstanding organization of the course."

Kevin O'Grady, M.D.
Toronto, Ontario, Canada

Call Nicole (530)753-2787 or nicole@drmichaelgoodman.com

Experience quotes from former trainees:

"Dr. Goodman's two-day course is an outstanding and comprehensive cosmetic gynecology tour de force. Dr. Goodman clearly and concisely reviews anatomy, patient selection, as well as pre and postoperative care during the evening before the surgical cases. He is extremely forthright, and he shared with us every possible surgical tip, including photography, in-office setup, anesthesia, nursing care and postoperative care. During the course, we were able to view a vaginoplasty/perineoplasty, a linear labiaplasty, a labia majoroplasty, and a V-wedge labiaplasty. The course is a fantastic value, and I would enthusiastically recommend it highly, both to the newcomers to cosmetic gynecology, as well as to those looking to perfect their techniques or expand their knowledge in this rapidly expanding field. Bravo, Dr. Goodman!"

Francisco Canales, M.D.
Santa Rosa, CA

In this 2 or 3 day course you will learn:

1. Workup; techniques & "RULES." for both linear and Wedge labiaplasty
2. Secrets of Vaginal tightening (vaginoplasty)
3. Labia Majoroplasty and labial lifts
4. Staff training, office set up, & local anesthesia
5. Marketing techniques for success
6. O-Shot™ and other uses for PRP. Laser use

Experience quotes from former trainees:

I was lucky enough to have trained with Dr Goodman in his personal office. The course exceeded my expectations! It was such a privilege to train with such a world renowned surgeon in this growing field. I read his book prior to attending the course so I could become more familiar with the procedures. The didactics were excellent! I still reference the many pages of notes I took during the course. I truly soaked up every minute of this experience because I felt it was a one in a lifetime chance! Words cannot explain the outstanding experience I gained by just getting to observe Dr Goodman operate as he provided us with surgical tips the entire time. I have adopted his attention to detail and careful pace during these delicate procedures. I truly feel this makes all the difference in the outcome! I even decided to have Dr Goodman come to my hometown to proctor me during my first 2 cases. This experience was invaluable!! He patiently walked me step by step through each operation, and then said I was ready to conquer this on my own! I strongly believe that if a surgeon is considering adding these procedures to their case list, they need to be trained by Dr Goodman! His knowledge in this field is truly exceptional! Lastly, he is a man of character and I am honored to now call him a friend!"

Appendectomy
\$7,900

ER Stitches
\$3,200

Why is this fa

It's not because they can't get a loan.

Jim and his family were declined by lenders because his credit score was too low. They've had their ups and downs like many people.

It's not because of their huge deductible.

Let's face it, many insurance companies charge a deductible that exceeds the resources of many. As a result they avoid care or suffer financially.

Score 425
deductible \$10,000

Mommy Makeover
\$10,000

Braces
\$6,000

Family smiling?

It's because they have a no-interest payment plan.

Their doctor offers the best possible solution for those with low credit scores and a steady job. Their doctor is attracting a huge demographic and is smiling too!

Would you like to make your patients smile too?.

It's easy! Learn more about this company and this payment plan for your practice at ISCGMedia.com/Money

Amelia Laing MD
ISCG Abdominoplasty Course Graduate

Welcome from the Founders

Welcome back! Most of you have been masked, sequestered, quarantined, vaccinated, revaccinated, boosted, infected, disinfected and ultimately delivered to the biggest and boldest ISCG World Congress ever to be held. Our 2020 Congress was the last live meeting anywhere in the world. Our 2021 Congress was the first live Congress in North America. Both were great under demanding conditions. This one is greater. Three full days of red-hot material instead of two. A no-holds-barred Awards Dinner Dance Extravaganza instead of a simple ceremony.

This year, we've devoted a full day to body contouring, social media, and the business of aesthetics to expose you to the best tips, tricks, and strategies for post-pandemic success. The world has changed, and you need to evolve to stay on top. The entire aesthetic industry is riding an unprecedented wave of patient demand. This is your time to shine and get your piece of the pie.

The program is the very edge of technological innovation brought to you by the finest specialists driving the aesthetic gynecology revolution. You will have an opportunity to see the amazing results that can be achieved as faculty and attendees compete for the ISCG Awards. Don't forget to take advantage of our world-class exhibitors and unparalleled opportunities for networking to help you succeed. Enjoy the Congress and enjoy Fort Lauderdale!

Day One

Agenda

DAY 1

Thursday, March 17, 2022

All events are in the Cornerstone Ballroom

7:55 am – 10:00 am General Session 101
10:00 am – 10:30 am Coffee Break
10:30 am – 12:30 pm General Session 102
12:30 pm – 1:30 pm Lunch Break
1:30 pm – 3:30 pm General Session 103
3:30 pm – 4:00 pm Coffee Break
4:00 pm – 6:00 pm General Session 104 Spanish Session
Concurrent Industry Events Talks on the Terrace
4:00 pm – 5:00 pm Payment Plans for Patients Sponsored by CareCapPlus
5:00 pm – 6:00 pm CO2 Lift & CO2 LiftV Facial & Intimate Rejuvenation Sponsored by Lumisque

General Session 101

7:55 am – 10:00 am

7:55am

Welcome and Introduction

Marco A. Pelosi, II, MD and Marco A. Pelosi, III, MD | USA

8:00 am

The Vagina Enigma: Gaps in Women's Wellness Screening

Sherrie Palm | USA

8:20am

Austerlitz or Armageddon: How to Win the War in Non-Invasive Cosmetic Gynecology

Hichem Bensmail, MD | France

8:40 am

Body Dysmorphic Disorder

Iwona Kuzlik, PhD | Poland

9:00 am

Simultaneous Vulvar Reconstruction after Cancer Resection

Rafal Kuzlik, MD, PhD | Poland

9:20 am

Labia Minoraplasty

Michael Goodman, MD | USA

9:40 am

Electromagnetism in Cosmetogynecology

Jorge Gaviria, MD | USA and Venezuela

Coffee Break

10:00 – 10:30 am

In the Exhibit Hall

General Session 102

10:30 am – 12:30 pm

10:30am

Management of the Buried Clitoris

Red Alinsod, MD | USA

10:50 am

The Most Common Mistakes during Labiaplasty requiring a Second Surgery

Dawid Serafin, MD | Poland

11:20 am

Management of Recurrent Vulvar Fissures with Diode Laser and Injectable Platelet Rich Fibrin

Carolyn DeLucia, MD | USA

11:40 am

The Use of Tranexamic Acid in Local Anesthesia Solution for Female Genital Surgery

Maria Jose Araujo, MD, and Alejandro Carbone, MD | Argentina

12:00 pm

Clitoral Repositioning

Rafal Kuzlik, MD | Poland

12:15 pm

Perineum Rehabilitation: Why and How to Have it in Your Clinic (Video)

Laira Ramos, PhD | Brazil

Lunch Break

12:30 – 1:30 pm

In the Exhibit Hall

General Session 103

1:30 pm – 3:30 pm

1:30 pm

Hand Rejuvenation with Microfat and Picosecond Laser

Jorge De Leon Soto, MD | Guatemala

1:50 pm

The Use of Autologous Fat in Urogynecology

Jaime Sepulveda, MD | USA

2:10 pm

Cosmetic Gyn 2022

HANDS ON TRAINING

You are the surgeon. You perform the operation. You learn.
It's the most effective, yet the most elusive training experience.
Guided by experts, you will be immersed in the ultimate

THE ISCG COSMETIC GYN

The Only Cosmetic Gyn Hands On Training Program in the World

The Cosmetic Gyn Cadaver Course is the only field specific course where you can actually train on true human anatomy (not chicken breasts or pigs). Despite specializing in Cosmetic Gynecology for over 13 years, I was still exposed to multiple new techniques and pearls to hone my skills and improve my patients' surgical experience
Wesley Brady MD

GENIUS
is making complex ideas simple
Albert Einstein

The privilege of having the most accomplished instructors guiding you in every task is awesome. You are impressed from the start that they not only want to show you how they do it, but that they want you to be able to do it successfully.
Christopher Duval MD

You will learn fast.
Environment anywhere.
Elite training experience.

You don't learn to walk by following rules
You learn by doing
Richard Branson

COSMETIC GYNECOLOGY CADAVER COURSE
