Priapus ShOt®

Family & love relations strained because of decreased firmness?

Size decreasing with age causing a disturbing mismatch with your spouse?

Did what was once straight become curved and painful (Peyronie)?

Ask us at our new, revolutionary procedure for the Priapus

ABOUT THE CONGRESS

You are witnessing the greatest surge in cosmetic surgery and medicine in the history of the world.

Patient demand is breaking records through the roof. Surgeons and non-surgeons from all specialties are jumping into the game. They want to deliver these services and they are primed to invest.

They need you to make it happen.

You are in the right place at the right time to do what you do best.

We are handing you the keys to success. Take them.

The ISCG 2025 World Congress focuses on the two hottest trends in aesthetics - Cosmetic Gyn and Body Contouring . This is no accident. We have had our fingers on the pulse of the industry from the inside and we have been getting unparalleled feedback from surgeons worldwide.

This is the only meeting of leading experts and key opinion leaders in cosmetic gynecology in North America. It has the longest track record in the industry. The Congress has been conducted annually throughout the United States for fifteen years and is well known globally as the trend setter in the specialty.

This meeting will be virtually-enhanced. Attendees will be present live in-person as well as live-virtual giving you unparalleled reach and influence across the country and across the globe.

To maximize your face time we have merged the meeting and exhibit halls into a single space. This is unprecedented. This means that you, the industry, will be permitted to attend the entire scientific program. You will gain incredible insights about your clientele that you have never before been permitted to see.

This meeting is the launching point for many technologies and techniques in the field and is closely watched by industry leaders, industry experts, early adopters, and entrepreneurs.

We expect 200 of the world's leading cosmetic surgeons, gynecologists, urologists, plastic surgeons and over thirty industry leading companies to attend the two day program. Your venue is a business-oriented venue and ISCG 2024 is the sole event for the duration of the meeting. We have organized the program to provide maximum exhibit time with no distractions.

This Congress provides unparalleled and intense opportunities to network with the top global experts, key opinion leaders, early adopters, and decision makers in aesthetics. The organizers offer a wide range of proven and flexible opportunities to industry to be involved in the meeting.

We very much look forward to working with you.

Ask us about starting your COOL transformation today!

*CoolSculpting® is the treatment device used most for nonsurgical fat reduction. Results and patient experience may vary. The CoolSculpting® procedure is FDA-cleared for the treatment of visible fat bulges in the submental area, thigh, abdomen and back, along with back fat, underarms, the buttocks (also known as "banana rolls"), and upper arms. It is also FDA-cleared for the treatment of back and abdominal cellulite. During the procedure, you may experience sensation of pulling, tugging, and pinching, intense cold, tingling, stinging, aching, and cramping at the treatment site. These sensations subside as the area becomes numb. In some cases, a temporary redness, swelling, and bruising may occur. Rare side effects include temporary numbness, tingling, burning, tenderness, soreness, itching, blisters, or skin necrosis. An improvement in your skin's texture and appearance may be observed. The CoolSculpting® procedure is not for everyone. The results for some patients of CoolSculpting® may take up to 12 weeks to be seen. Please consult your doctor for more information. CoolSculpting® procedure is not a treatment for obesity. For your doctor's information, please visit www.coolsculpting.com.
